pastor of the Church of the Incarnation, officiating. They left Washington on the II:30 o'clock Pennsylvania train for Conneaut Lake, Pa, where they will spend their honeymoon. Mr. Peck has an engagement there to give an exhibition with the Rex Smith machine and will give two flights a day college Park and as soon as Content.

for four days beginning Monday.

The marriage of Miss Owens and Mr.
Peck is the culmination of a courtship
that began a year ago at the Washington automobile show. Mr. Peck had a
machine entered at the show. They
met there and a ranid courtship bean. met there and a rapid courtship becan.

Mrs. Peck will make the tour with her husband and on Monday or Tuesday, at Conneaut Lake, will make a flight with him. In the winter the Rex Smith with him. In the winter the Rex Smith machine will four the South, and Mrs. Peck wilf go along with her husband. The honeymoon will extend even to South America, for before spring the Rex Smith machine will go to several South American states for exhibition flights, and Mrs. Peck will accompany the daring young aviator on all his the daring young aviator on all his

When the Rex Smith people decided to send Peck out on a tour, it made the young aviator feel blue because it might mean a separation from the girl he loved, but Cupid won out, and a detsion was reached for them to be mar-

cision was reached for them to be mar-iled before the tour.

They will return to the city for a few days the latter part of September, and then will leave again on an ex-tended trip through the South.

Mrs. Peck lived in Washington seven years. Mr. Peck has been in this city about four years, corring here from West Virginia. Mrs. Peck is the daugh-ter of the late Dr. C. S. Owens, of Rockville, Md. Upon the death of her father Mrs. Owens and children moved

to Washington.

BIPLANE TO TRAVEL AT TERRIFIC SPEED

Army Will Fly Seventyfive Miles an Hour.

Miss Ruth P. Owens, the pretty eighteen-year-old daughter of Mrs. Elizabeth Weils Owens, of the Royalton apartments, 318 M street northwest, and Paul Peck, the daring aviator of the Rex Smith Company, were married this morning at 10 o clock at the home of the bride, the Rev. William Tayloe Synder, bastor of the Church of the Incarna-

chine and will give two flights a day College Park, and as soon as Captain Beck returns from Chicago, where he attended the aviation meet last week, he will begin to make flights in the new machine used by Captain Beck. There is another Curtiss machine at From automobiling Mr. Peck's attention drifted to aeronautics. But then the courtship was not strong enough to influence him not to take up the venture. Weeks went by, but the couple made most of the time and were seen together often. When Mr. Peck began to learn to fly his sweetheart objected, mainly because she thought he would be dashed to his death like many others when learning. the park, but when it was first

Milling and Kirtland Take an Aerial Jaunt To Annapolis Junction

Annapolis Junction was visited by the army aviators late yesterday afternoon, when Lieutenants Milling and Kirtland, in a new Eurgess-Wright machine, flew from College Park, Md., over the town and back to the aviation field. They intended making a flight to Frederick, but Lieutenant Milling was detained in the city until 4 o'clock, and the trip was where manicuring is thoroughly taught; course postnoped. They then decided on the fig. Hair Dressing, Shampooing, Chiropody. postponed. They then decided on the trip to Annapolis Junction, ten miles

They went up 1,200 feet before they began their flight. On the way over the air was rough, and it took twenty minutes to go, but in returning the conditions were better and they made the remarkable time of a mile a minute. Before this flight was made Lieutenant Kirtland carried the machine up for a trial soin for five minutes.

Frank Kastory, the Hungarian avia-or of the Rex Smith Company, carried tor of the Rex Smith Company, carried the Fox machine up at 5 o'clock and flew around the aviation field. He was up a hundred feet. The machine be-haved perfectly, and Kastory was given an ovation when he made his landing.

Tarbox Stability Device to Be Given Tryout Tomorrow

The Tarbox stability device which is to be demonstrated to the Government aviators at College Park this week, will not be taken on the field until tomorrow afternoon. It was to have been demonstrated this afternoon, but the Schneider biplane, upon which it is to be worked, has not been entirely

assembled.
One of the contentions made by the inventor is that an aviator can carry his machine a thousand feet in the air, and after striking a "straight-away," can take his hands from the control and the stability device will automatically keep the planes at their proper places. This feature interests the Government more than anything else. It will enable a man to fly over the enemy's camp and make sketches and observations. At present an aviator must not turn away danger.
